Technology requirements for all students:

If you have a computer that is 5 years old or newer you should have no problems! However, if your's is older than that use the information below to determine if your computer will work:

- A reliable high-speed Internet connection
- Windows 7/10 or Mac OS 10
- The current version of Firefox for Windows machines or Google Chrome for Mac recommended. Internet Explorer not recommended
- Current version of Java (see http://java.com)
- Pentium 4 1.2 GHz Processor or better (ask your IT person if you are unsure)
- 512 MB RAM or better (ask your IT person if you are unsure)
- Headset with attached microphone - required for all students

Adobe Connect requires minimal IT requirements; here is a simple diagnostic tool you can use ahead of time to see if your computer meets the minimal requirements:

- Test your computer or
